NEW FREZZI LED ON CAMERA LIGHT Frezzi Energy Systems is proud to introduce the Frezzi LED Mini-Fill.

Our latest LED Mini-Fill draws only 10 watts of power with a color temp of 5500 degrees.

All Frezzi LED lights include LED bulbs. The output is equivalent to a color corrected 30 Watt tungsten lamp.

The long-life LEDs are estimated to last for up to 10,000 hours. The LED Mini-Fill is exactly the same size of the standard Frezzi Mini-Fill and can accept all Frezzi Mini-Fill accessories.

91702	MFIC-LED-PT	power tap connector, 2' cable
